

POLICY MEMORANDUM

No. I-50

Award of Professional Distinction

Each year, Missouri University of Science and Technology awards a limited number of Awards of Professional Distinction to persons who have made important contributions to their profession. Recipients of these degrees are usually graduates from this institution. A distinguished career on the part of the individual is the predominant criterion for selection.

An Award of Professional Distinction is awarded upon the recommendation of the faculty within the department most closely related to the proposed candidate's field of accomplishment. The recommendations are forwarded by the Department Chair to the Provost for approval.

The Award of Professional Distinction is given by invitation only, extended by the Chancellor. The candidate must be present at the designated Commencement Exercise in order to receive the award.

EFFECTIVE: Immediately

RESPONSIBILITY: Provost

BASIS: Chancellor

Cheryl B. Schrader, Ph.D.
