

## **POLICY MEMORANDUM**

No. II-26

### **Externally Funded Graduate Assistantships**

Providing full funding of tuition, fees and stipend for graduate assistants (GRAs, GTAs, GAs) working on grants is a common practice at research universities. This combination of tuition, fees plus a stipend recognizes the dual role of the students. This practice is about providing the appropriate support for students.

Effective September 1, 2015, full tuition and fees plus a stipend for GRAs, GTAs and GAs will be budgeted in all grant proposals and contracts where such an appointment is proposed. Tuition and fees will be directly charged to the grant or contract supporting the student's stipend.

**EFFECTIVE DATE:** 9/1/2015
